# LABOTTEGA®

Beauty will save the world.

We are not talking about art and nature. Salvation will come from beauty that we see every day around us when we are in a good mood.

The day seems brighter than usual, the coffee tastes better, the news are positive. It is the beauty of the little things that we like to spread in your hotel: crystals that dissolve in water, soaps that become mousses, soft and scented creams.

The play of water and its vapors, the rich foams, the cold alternating with the hot: every day is the best excuse to smile at the world.

#### WHY IS SCENT SO IMPORTANT?

Scent is a powerful trigger that activates our "Team of emotion" known as the limbic system – a network of connected structures near the middle of the brain linked within the central nervous system. These structures work together to affect a wide range of behaviours including emotions, motivation, and memory. This system deals with instinctive or automatic behaviours and has little to do with conscious thought or will. The limbic system also deals with translating sensory data from the neocortex (the thinking brain) into motivational forces for behaviour.

Through 130 years and 4 generations, Claus Porto developed its unique expertise in soaps, colognes, scented candles, home diffusers or men grooming products, crafting a philosophy of authenticity and an incredible portfolio of colourful hand-made labels and design patterns, each with its own unique personality.

C.O. Bigelow & Lewis - Est. 1838

Honest, Genuine, Trustworthy.

Nestled in the tiny neighborhood of Greenwich Village in New York City, C.O. Bigelow is the landmark apothecary that has been a fixture of New York City culture since 1838.

For nearly two centuries, Bigelow has been a destination for the Country's most prominent personalities, from Thomas Edison and Eleanor Roosevelt to modern film stars and esteemed writers, musicians, and artists.

Inspired by actual formularies and therapeutic ingredients from our archives, C.O. Bigelow's personal care products combine centuries-old, proven formulas with modern remedies sourced globally. In keeping with our longstanding mantra of "Honest, Genuine, and Trustworthy," the line is an authentic range of problem-solution formulas with a heritage of efficacy. Many of the products are not only true to the original formularies but also named for the doctors who created them or the patients for whom they were initially made, continuing to tell a story of C.O. Bigelow's apothecary tradition.

## MILANO

CULTI MILANO was born of an intuition from the eclectic mind of Alessandro Agrati: namely his perception, which was incredibly ahead of its time, that spaces and objects might have their own scent too; that it was possible to surround oneself with olfactory quality, in addition to beautiful things in pleasant rooms. It was 1988 when Agrati embarked upon his personal research into the link between the design world and the world of the senses, something that would revolutionise the very way in which people experience spaces and objects.

“The idea of creating a Culture of ambience, which incredibly enough was lacking in our world, in this era”.

This inspired the name CULTI MILANO. The project, interweaving culture and style, has over the past 30 years followed a carefully-crafted creative pathway, leading it to become a brand with a distinctly personal spirit. Personal like culture, which is moulded from our everyday experiences. Personal like a scent, with the power to conjure up memories.

For indeed, CULTI MILANO is much more than a home fragrance.

“CULTI MILANO is the opportunity for a person to choose their own fragrance, which will accompany them in their homes and in their life”.

# ARAMARA

Aramara is the result of an afternoon spent in the kitchen of a Sicilian pastry chef who summoned his skills to reveal the countless secrets of bitter orange. Formulated like a product of haute patisserie, Aramara is a gourmand fragrance: its intense and citrusy top notes are animated by the delicacy of bergamot and sweetened by a base note of sandalwood.

DIPTYQUE

Once upon a time...

Existed a story of love and friendship that lasted 40 years between Christiane, Yves and Desmond, three transdisciplinary creators from the worlds of architecture, theatre and painting.

Once upon a time, there were three multiskilled idealists, three free and cultivated poets, three aesthetes and artists, who were united by their taste for travel and great civilizations, and a shared sense of beauty.

Once upon a time, three “marchands de rien” (purveyors of trifles) sold only what they loved, what they discovered, redecorated and repurposed in the course of their inspired travels.

Once upon a time, there were decorative items, scented candles and the perfumes - because, ultimately, smells, more than any element, serve as bearers of memory to inspire, and encourage the imagination to wander.

# L'ART DU SOIN

L'Art du Soir is a poetic experience, a sensorial product line designed for the well-being of both the body and soul.

# L'OMBRE DANS L'EAU

L'Ombre dans l'Eau is a romantic painting that narrates a story of daydreams from a summer moment on a calm river under a weeping willow. The inspiration for the scent happened when a friend of the founders noticed the alluring aroma of roses and blackcurrant berries on her hands after an afternoon in the garden. The scent was so surprising that the creators wanted to capture all of its dimensions: the herbaceousness of the blackcurrant leaves, the fruity acidulated accents of their buds and the floral intensity of the rose. It is a nature-filled moment to savor. In the Eau de Parfum variation the fragrance is denser and more sensual fragrance of a rose in full bloom.

# DS&D URGA®

D.S. & DURGA was founded by David & Kavi Moltz.

“We started from scratch and did it our way (more Sid than Sinatra). We were pioneers in the DIY Brooklyn movement and began by turning things we loved into scented stories of cowboys, open terrain, Russian novel characters, and folk songs - all packed into handstamped boxes in our Bushwick apartment. Attention to detail and the importance of human hands are still vital to our process today”.

D.S. & DURGA is one of the only fragrance brands whose perfumer sits at the helm. Our scents evolve from carefully crafted narratives for a sensory experience that extends beyond just smell. Each perfume has stories, photos, films, and playlists. Kavi approaches her work like the architect she was trained to be. Thinking in angles, light, shadow, and texture, Durga seeks clarity in form and function. She builds buildings for our scents, cities for our universe.

D.S. taught himself how to make perfume by completely immersing himself in all things fragrant. He is dedicated to translating musical and literary spaces into scent. Each fragrance is conceived and constructed by D.S. exclusively. Our perfumes are all made in New York City - fragrances formulated in Brooklyn, bottles filled in the Bronx.

D.S. & DURGA aims to create fragrances that live on the level of great music, painting, and literature. a perfume is a world you can return to over and over again — a keyhole into far off places — material and imaginary.

First released in 1989, the ETRO fragrance collection envisages perfumes as an art of the intellect and a striking artisan alchemy that infuses timeless memories with inebriating emotions to become purely sophisticated essences.

Entirely crafted in-house, in collaboration with expert maître parfumeurs, the collection features 23 universal blends comprised of eaux de toilettes and eaux de parfumes.

The range further includes the bath line and ambient fragrances – exemplified in green and fuchsia, respectively – for a complete and enveloping olfactory journey to awaken all senses while transporting them to faraway confines and yet unexplored sensations.

In this broad and evocative range, natural ingredients take center stage wafting through zesty spices and lavish incenses towards warm woody notes intermingling with resins, herbs, and citrus fruits.

Exuding the brand's vision of flair and fascination, ETRO's fragrance collection is an immersive and caressing universe to explore, discover, and enjoy every day in ever changing ways. As the newest experience added to this choral narrative extends beyond the customary routine to deliver an inventive ritual of self-expression, different fragrances can also juxtapose and interweave like the precious threads of a beautiful fabric.

# EDEN (UDAIPUR)

Udaipur encapsulates the primary inspirations of the Maison, reinterpreted them through the varied nuances of a fragrance that evokes both summer in the Mediterranean and the gardens of the Maharaja. The Sambac jasmine with its angelic and noble petals represent blessings during nuptial rites, bestowing grace, good luck and romanticism.

This fragrance is a hymn to the skill of Italian artisans, to the magic of India and the many connections between these two worlds, which over time has woven a tale of the imagination.

**FLORIS**  
LONDON

In a year that has seen a great deal of change we are proud to say we remain an independent family owned business, and have been for 290 years. Based in the elegant quarter of St James's, Floris is proud to be the standard bearers of perfumery expertise in London. Nine generations of perfume creation has taught us the emotive power of scent and the skill required to create perfumes of unmistakable quality.

Our ancestor Juan Famenias Floris travelled from Minorca to London and married his English Sweetheart, Elizabeth. Together they established a working perfumery which is still in use today.

As the oldest independent perfumery in England, we have developed a sustainable yet innovative approach, long lasting relationships with our customers, as well as finding ethical ways to access the world's most precious perfume.

Made in Britain, using the finest essential oils and essences gathered from around the world. We are proud to add new fragrance creations to the repertoire of our forefathers and be custodians of Floris for future generations.

We have been proud suppliers to the Royal Household since 1800, receiving our first Royal Warrant by a reigning monarch as "smooth pointed comb maker" to HM King George IV.

The perfumer's art can ignite the senses and vividly recall our memories, enriching the most precious experiences in our lives. Creating scents that evoke emotion, make you feel special, or mark an important moment for you is essential to us.

# Fragonard

PARFUMEUR

Parfumerie Fragonard was created in 1926 by Eugene Fuchs. As a tribute to the town and celebration of the elegance of 18th-century arts, he named the new business after the famous royal painter Jean-Honore Fragonard (1732-1806). His choice of name was also an expression of his intention to run the perfumery on traditional lines. That spirit has been steadfastly preserved by the three succeeding generations of the family - which is still running the company.

Because of its wonderful location, Grasse and its surrounds are endowed with very favourable conditions for growing a great many species of flowers and aromatic herbs. With the warm summer sun of the South of France, the mild winters of the abundance of mountain streams, there is an exceptional micro climate.

## JONATHAN ADLER

Jonathan's mission: to bring Modern American Glamour to your life.

How? By creating a foundation of timelessly chic furniture and accessorizing with abandon.

It all started with pottery. Jonathan first gave the wheel a spin at summer camp when he was 12 years old. He was obsessed with clay the moment he touched it. Unfortunately, his passion wasn't always encouraged. After his college professor told him, "You have no talent. Move to New York and become a lawyer," he attempted to comply, moving to the city and working in the entertainment biz. Three years later he quit and went back to the wheel.

In 1993, Barneys bought his collection of pots, and in 1998, he opened his first store. Now he has stores located around the globe and his offerings span furniture, lighting, décor, and more. His products - and iconic interior design projects such as the Parker Palm Springs - are all rooted in his commitment to outstanding design, impeccable materials, and unparalleled craftsmanship.

His motto? If your heirs won't fight over it, we won't make it.

# ESSENTIALS

Peppermint, Rum, Vitamin B5 and Cilantro are natural perfumes, provided with a single note. They are used for their specific therapeutic properties. Peppermint is used for its holistic benefits and well-known for its stimulating effect on the scalp, as well as for being cleansing and antibacterial. Bay Rum updates its traditional, apothecary origin among the perfumes: it has been a pillar in those environments for centuries. By using it, the modern pharmacist mixes tradition and modernity.

# ORTIGIA

SICILIA

Ortigia is a small Italian soap and scent company founded in Sicily. The luxurious range of soaps, scents, creams, candles and lotions are formulated using natural products indigenous to Sicily and inspired by the aesthetics, colors and scents of Italy's most historic and tropical region. The base of all the products is natural perfume and natural ingredients: olive oil, vegetable glycerine, and organic colours. No SLS, nickel or silicone; products not tested on animals. Paraben free, the range uses traditional products with modern ethics and integrity. All Ortigia products are made by small family companies who pride themselves on the quality of their products.

The name Ortigia comes from the small island that lies at the edge of the ancient fortified city of Siracusa, on Sicily's southeastern coast. The streets of Ortigia are crumbling baroque façades of great splendour looking out on 3 sides to the sea.

There are hundreds of orange & lemon groves - the only place where blood oranges grow - also grapefruit trees, almonds, pistachios, saffron, vines, olives and cactus. The uniquely rich and layered culture that is found in Sicily today, has inspired the creation of the Ortigia range.

Born in Marseille and nurtured from an early age in the gentle lifestyle of Provence, Jérôme Lambruschini grew up in the shade of the cypress trees and mimosas of the Southern Alps region. His grandfather passed down his passion for trees, the vegetable garden and nature. As for his mother, she instilled in him her love for the earth and perfumes. It is from this dual inspiration, both Mediterranean and maternal, that you can find today in every Panier des Sens product, whose first collections came out in 2001. Inspired by the gentle lifestyle of the South of France, the Panier des Sens range of care, toiletries and perfumes illustrates Provence through fragrant and natural collections. The natural formulas benefit all skin types, and abide by a strict formulation charter, always giving precedent to vegetal and organic natural ingredients. The packaging, floral and carefully designed, are also eco-conceived. The ranges of lotions, soaps and perfumes magnify the beauty of Provence through elegant products with subtle textures and delicate fragrances from Grasse.

The story of Pure Altitude begins in the restful world of the spa at the Fermes de Marie in Megève. By creating an Alpine garden here with a botanist with expertise in mountain plants, Jocelyne Sibuet discovered edelweiss's skin care benefits. This led to the idea of a skin care range that would combine her two passions - mountain lifestyle and beauty.

"Three key words guided me in creating each formula of the Pure Altitude skin care range. First of all, Rarity - that of natural active ingredients extracted in optimum conditions to preserve all their beneficial effects.

Next, Technicity - that of skin care products on the cutting edge of plant-based cosmeceutics, involving intensive cellular regeneration. And finally, Pleasure - that sought by the women I had in mind when I created the range." Jocelyne Sibuet, founder of Pure Altitude.

# FLEURS DE NEIGE

Like an echo to the white of the last snows, the lily of the valley, with its flowery smell, invades us with its green notes of freshly cut grass. As for the broom, it awakens under the softness of the spring, in a delicate fruity scent, mingling with the tonic freshness of an aromatic mountain bouquet: wild thyme, mugwort and rosemary. The musk, in the background, envelops us with its scent of cotton and powder, and releases the comforting scents of clean skin smell.

# ROSSANO FERRETTI

Born into a world of hairdressing, Rossano followed in his family's footsteps and created an empire that is recognised for its premium hair spas and designer haircare products. Rossano's love for hair runs blood deep. As a child, he was influenced by his grandfather, a barber who did house calls on his Lambretta, and his mother and grandmother who ran a small salon in his home village of Campegine. In the mid-1970s, when he was just 15, he went to London to study hair design. His dream was to create a timeless style that would encourage individuals to embrace their unique natural beauty. Over the coming years he travelled all over the world to understand every hair kind and culture to be able to create the most revolutionary hair cutting method!

Living up to his aspirations, Rossano established his first salon in Parma, Italy in 1990. Fast forward to today, RF has expanded to include more than 20 internationally acclaimed hair spas in luxury destinations such as Paris, Barcelona, Bali, Los Cabos, Maldives, New York, Milano, Geneva, Dubai and Monaco to name a few! Each hair spa is luxuriously tranquil and caters to individuals who want to be treated to a serene journey experience that leaves them feeling beautiful in the hair and skin they are in. One of the key elements of their initial success was the creation of Rossano Ferretti's 'The Method', famously known as the Invisible Haircut. It was and still is a completely new concept of hair cutting and exclusively available in Rossano Ferretti Hair Spas. This method allows the designer to enhance the individual beauty of every client, customizing the haircut according to the hair type and the characteristics of the individual person, rejecting standardization and conformity. The brand has also since released a line of premium natural hair care products; a revolutionary combination of the best natural ingredients, hand-crafted by Italian hair artisans using the latest skincare technology and Italian heritage.

It was during the early 20th century, that an unprecedented innovation was on the brink of discovery. All it would take to come to fruition, would be the serendipitous encounter of these two great Parisian minds. The Chemist, a young handsome researcher, went out for a walk at the very edge of the noisy metropolis wearing his white lab coat. The 20th District was cobbled together with land and villages that at the time were outside the city limits. That part of town had always something mystical.

On that particular day the intensity of the fog was unnaturally entwined with the strange light in the clouds. The Chemist had walked that path many times on his way home from work, but only that day, in that odd misty light, did he notice an opening, something akin to a passageway in between the bushes. He decided to follow it.

With a quickened heartbeat, and an insatiable curiosity, he stepped through the gap in the bushes. A secluded garden, something the likes of which he had never seen, revealed itself at the end of the pathway. Exotic plants, flowers of any and every color. A wave of aromas, blended in the air.

“This must be the secret 21st district”, he thought. Suddenly an old, stylish and Extravagant man stepped out from a shed. He wore a green velvet suit and thin glasses balanced on his nose as he carried a heavy jar. His look brought back a different era. This man was The Botanist.

## **TOILETPAPER**

Born in 2010, TOILETPAPER is an artist's magazine created and produced by Maurizio Cattelan and photographer Pierpaolo Ferrari.

Since the first issue TOILETPAPER has created a world that displays ambiguous narratives and a troubling imagination. Combining commercial photography with twisted narrative and surrealistic imagery.

The result is a publication that is itself a work of art which, through its accessible form as a magazine, and through its wide distribution, challenges the limits of the contemporary art economy.

# BEAUTY COLLECTION

A collection with a unique character which conveys the passion and fun of its creators. The idea of beauty in this line starts from the image, a pleasure involving all the senses and which stimulates imagination, so that everyone can indulge in an ecstatic, perfumed and surreal world where everything is possible. Colored snakes caressing your hair. Humanoid flowers looking at you while you look after your body. Hands with lipsticks for your hands.

# VOTARY

VOTARY was founded by British makeup artist Arabella Preston and entrepreneur Charlotte Semler in 2015. VOTARY is a beautiful edit of high performance plant-powered skincare that harnesses the natural power of plant oils and active ingredients to deliver dewy, glowing, healthy skin. An exclusive global distribution strategy means their luxurious amenities range, designed exclusively for La Bottega, is only found in the very best hotels and spas. VOTARY have created a spa treatment menu, combining highly effective facial protocols, alongside aromatherapeutic body treatments.

VOTARY products are vegan and cruelty free and only use 100% natural fragrance. The wholesome goodness of Chia and the botanical, purifying aroma of Rosemary, combine to create a truly unique, and 100% natural, unisex fragrance. Be transported to a cool and calming herb garden and immerse yourself in natural purity.

# ROSEMARY AND CHIA

Natural plant oils are packed full of omega 3 fatty acids and are rich in anti-inflammatory and anti-ageing ingredients. Natural oils suit all skin-types. They help dry and dehydrated skin to re-hydrate and recover, they restore a balance to combination skin, they reduce oiliness in oily skin (yes really!), and they reduce the appearance and recovery time of blemishes.

A photograph of a building facade featuring a grid of windows. Each window is covered with light-colored, vertically pleated curtains. The windows are arranged in a regular pattern, creating a repetitive architectural motif. The lighting is soft, suggesting an overcast day or early morning/late afternoon.
